

SHEET MAGNIFIER

MODEL: SM-A4 2921

A sheet magnifier is a thin, flexible, and lightweight magnifying aid used to enlarge text or images for individuals with visual impairments. It's placed flat on top of the material to be magnified, and the magnifying lens on one side enlarges the content underneath. It's portable and comes in various magnification powers, making it a convenient tool for reading small print or viewing objects for people with low vision.
