

# CURVED LACRIMAL CANNULA

**D 5057**

**26G - 0.45 X 32 MM**

## Description:

Crafted for precision and safety, it facilitates effective irrigation of the lacrimal system while minimizing patient discomfort. With a curved stainless steel tip and a smooth finish, this cannula is ideal for tear duct probing, flushing, and related eye procedures. This product is commonly used by ophthalmologists, eye care professionals, and surgical centers world-wide due to its flexible design and accurate fluid delivery.
